

Imaginary Media Images
IMI

The Duo Team - Imaginary Duo

Together with the love of all things print and digital media, the imaginary duo, ImaginaryMediaImages, bring their experience in arts, print and design to fruition, to bring their collections into production and provide master printing. We have a huge background in graphic and fine arts, commercial print production, design and multimedia. Our experience is a blend of:

- traditional arts and industrial production
- leading projects
- exhibition and research publication
- creative direction - small and large scale

We have done our rounds, tread the boards across commercial, government and not-for-profit sectors, specialising in fine art prints, experimental media, commercial publications, magazines and bindery. Just about everything from traditional print and digital media.

As creatives ourselves, demanding the highest quality in digital art works, we offer our expertise in printing and producing images. We can produce expert quality ink jet printing, specialising in archival quality inks, paper and canvas.

Imaginarymediaimages (IMI) has a range of its own artworks available and we hope to promote other artists works as we expand our studio and on-line presence.

Image

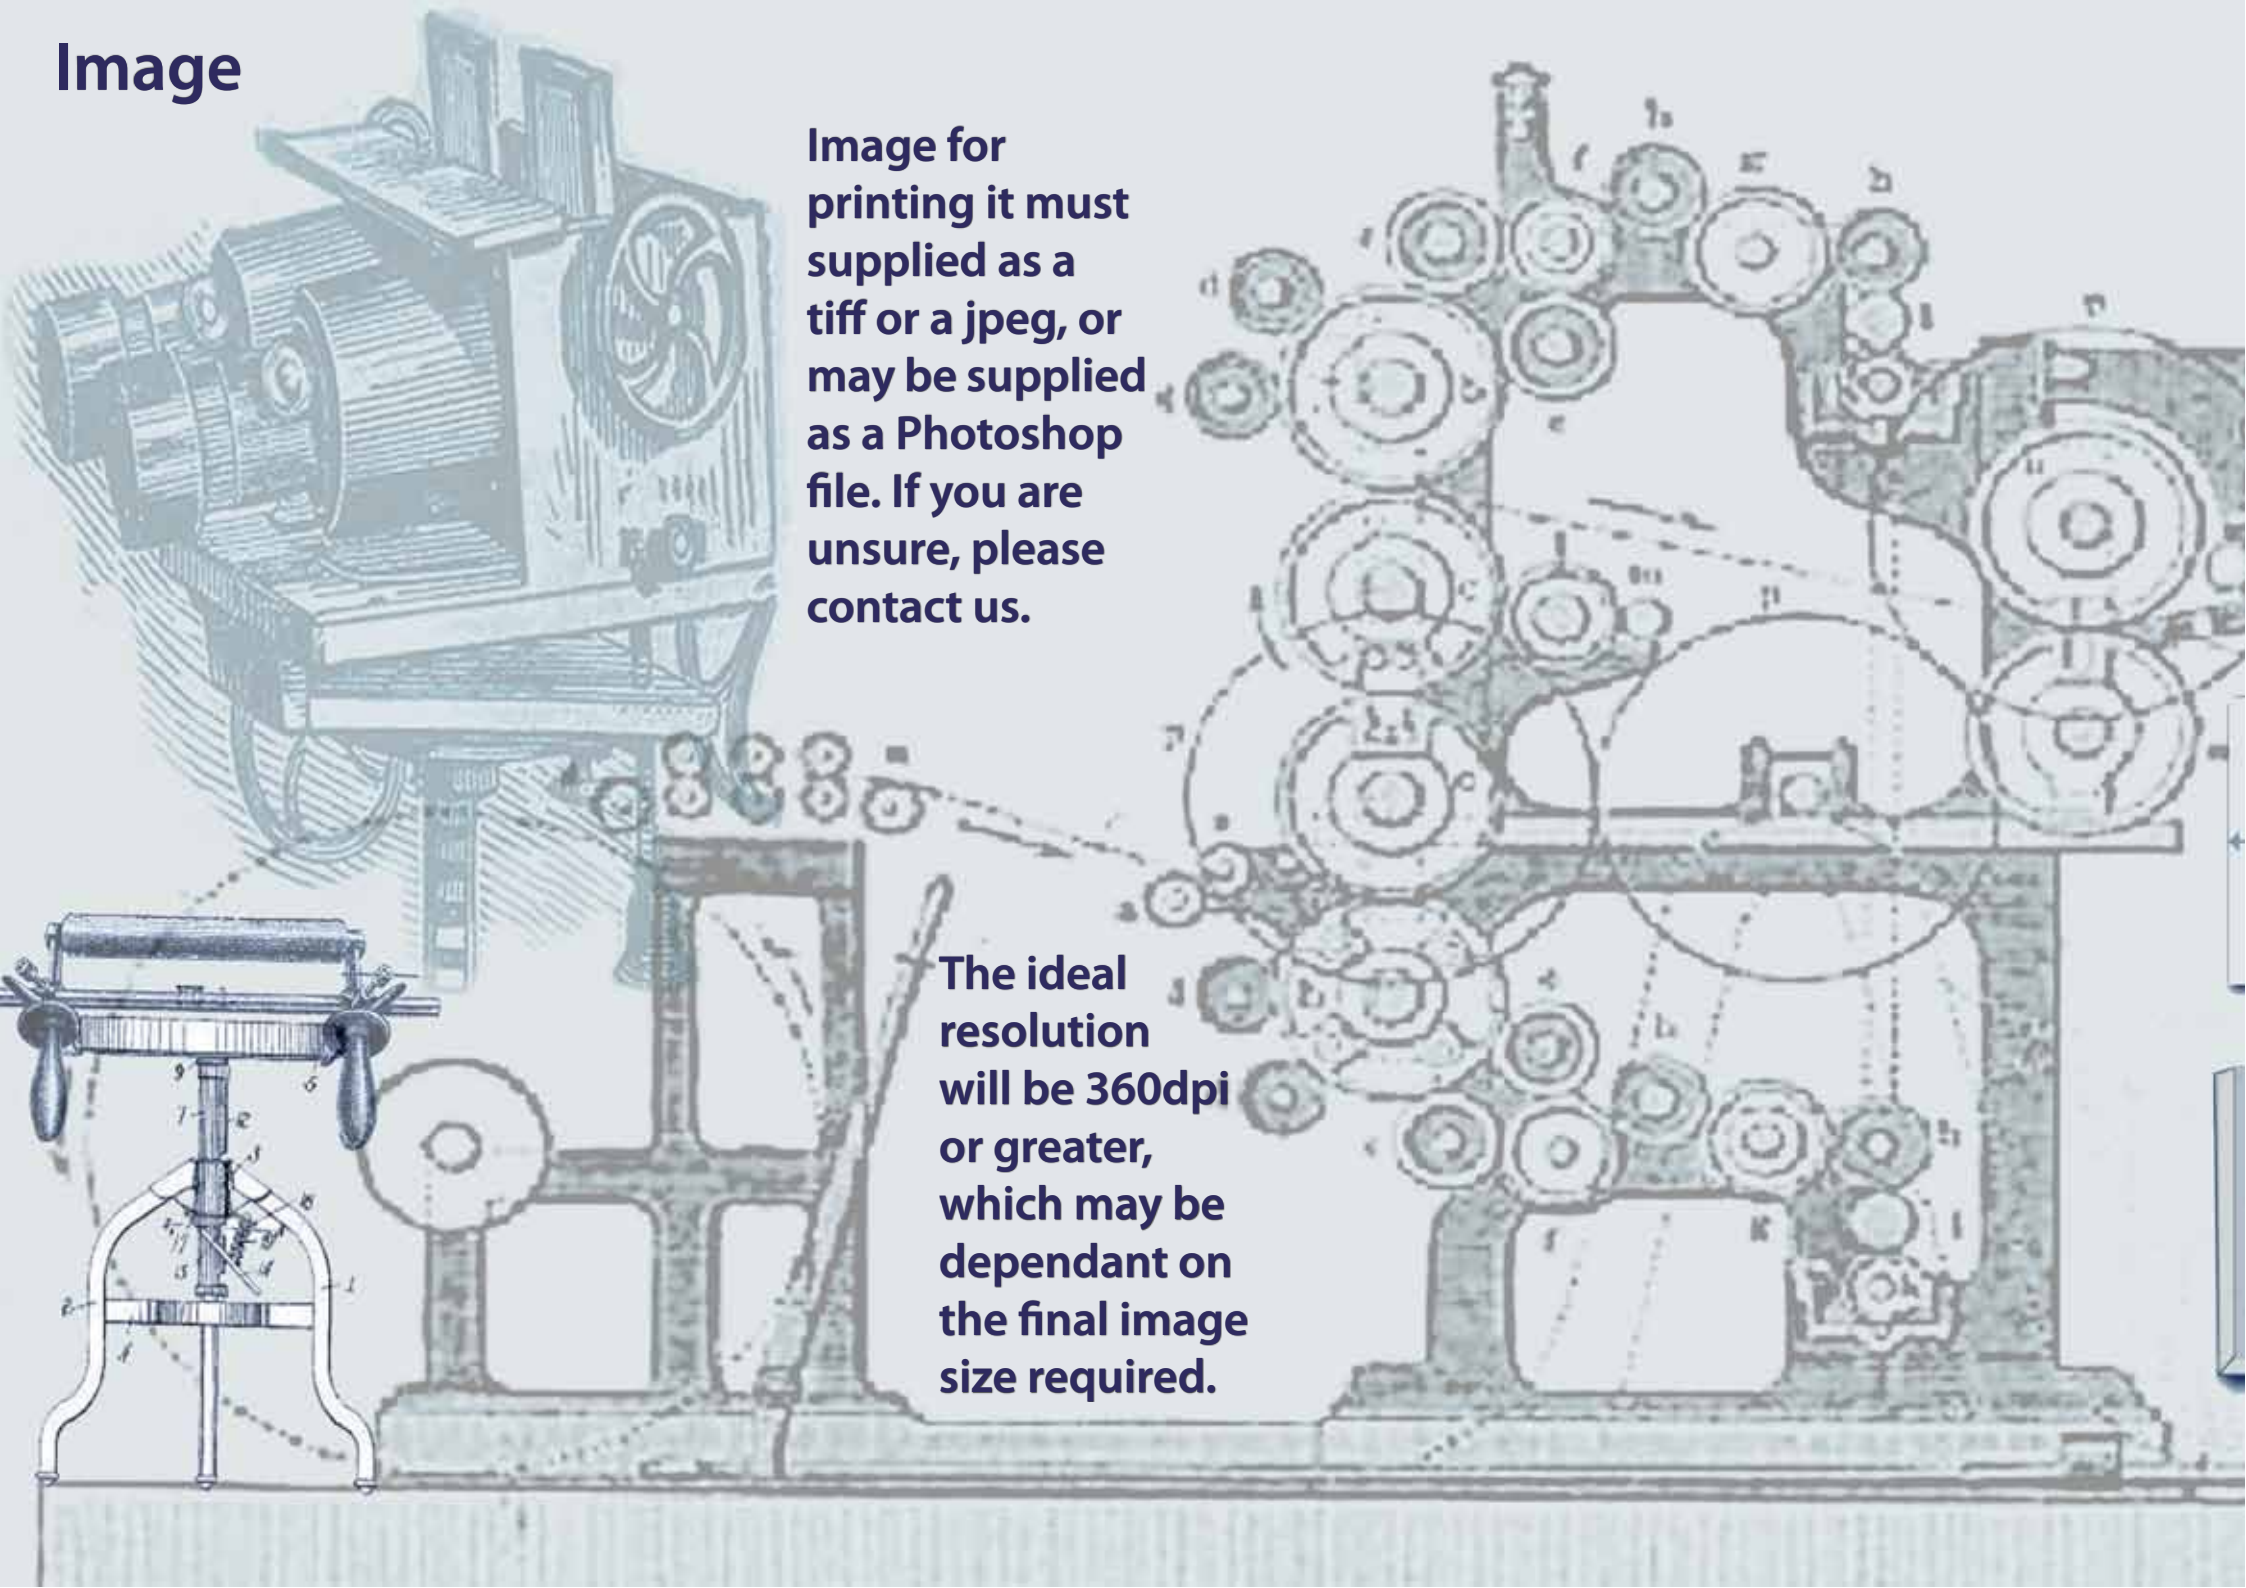

Image for printing it must be supplied as a tiff or a jpeg, or may be supplied as a Photoshop file. If you are unsure, please contact us.

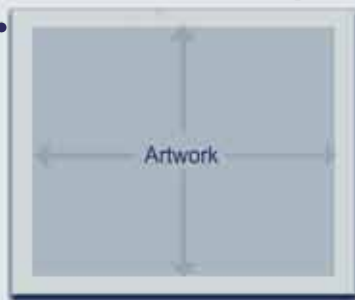

The ideal resolution will be 360dpi or greater, which may be dependant on the final image size required.

Any image manipulation required will be charged at \$100 per hour. Please contact us to discuss your individual requirements.
